Attention Autism Training Foundation Level Workshops

Engagement, attention and communication skills for autistic children in young people in early years, special and primary school settings

Ms Lorraine Scott,
Director, Attention
Autism Limited, UK

These two identical workshops will equip attendees with dynamic skills to deliver the 4 stages of the Attention Autism programme.

Attendees will learn:

- The practical aspects of the programme, offering an irresistible invitation to learn in a group setting.
- How to teach engagement, attention and communication in a manner that is enjoyable for the children and staff.
- How to establish and deliver the programme confidently.
- How to apply the principles of the programme in the wider school/community setting.
